Abstract

(In 3-5 sentences, summarize the work performed focusing on the results of the experiment. You should not report all values measured/calculated, but focus on what you accomplished. Since you are reporting work completed, you should write in the past tense.)

Answer the following questions for each part – you do not need to repeat the entries from the tables in your notebook.

Part A

Question 2

Question 3

Question 4

Part B

Question 2

Question 3

Part C

Question 2

Part D

Question 2

Question 3

Question 1 (p. 19)

	Prediction	Actual (from reference)
a		
b		
c		
d		
e		
f		
g
