1. Meeting schedule for rest of this semester:

Assessment wrap-up work session – Thursday June 3, 10 am – 4 pm

2. Keeping track of Assessment data – Math department wants SLO and assessment info for Project Bridge Math classes to be kept separate from normal math classes. Does this make sense?

3. Training Materials, Budget

Decide on what training materials we'd like to order
Decide how much we think should be spent on them.

4. Discuss presentation from Academic Senate Plenary

From kvp:

"here is the powerpoint presentation I (think i) mentioned to you from the academic senate spring plenary. I found it and mr. stoup to be highly meaningful and well worth our time and attention for a future presentation here at laney. his specialty is using data to tell stories . . . the powerpoint attached explains how and why that matters. he has another one that focuses specifically on using data to tell stories. perhaps we can talk about this soon?"

5. Planning for next year

Meeting dates for LAC?

Can we devote a significant amount of time to assessment during Flex days? How can we make sure most people know what's involved in assessing SLOs and get them to work on it?

Especially in a budget crisis?

Need a concerted effort – all levels of the college
