

September 2019

Laney Facilities & Technology Updates

Working Together to Support Our Students & The Campus Community

F Building & Student Center Reopen

The work on the Student Center and F buildings were completed just in time for the start of the semester. The bookstore and cafeteria operations have returned to the student center and are both open for business.

For individuals needing support with accessing the Bookstore, signs have been posted in the Student Center for numbers to call to get assistance through the ADA pathway. For reference, calls can be made to 510-599-9411, 510-464-3228 or cafeteria staff are available to call for escorts.

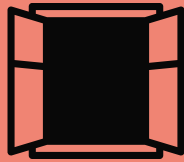

Blue Phones Project

Phase I is now complete with the final blue phone added to the swimming pool area. A list of blue phone locations is at: <https://laney.edu/personalsafetyandsecurityservices/>

Watch for Phase II coming this spring!

New IT Staff

The IT Department is pleased to announce that Ms. Roxana Post has joined the IT team. Roxana will be responding to help desk calls, providing A/V training to Laney faculty and maintaining the IT assets inventory.

Broken Windows: The contractor will begin replacing broken windows around campus the week of September 6th and the project should be completed by the end of the month.

Work Orders

Work repair requests can be made by emailing the business office at lbusinessoffice@peralta.edu or by calling the business office at 510-464-3228. Please provide as much detail as possible when requesting repairs.

Commitment to the Environment

We are committed to keeping our environment and facilities clean. If you have old IT equipment, toners, etc. that you need picked up, please contact us at:

laneyhelpdesk@peralta.edu

Tech Tuesdays

The IT Department is launching the start of a monthly technology series. Suggestions are welcome for any topics you may need training on. Stay tuned for more information.

Smart Classrooms

This project is coming to a close! The theater and culinary areas were the last ones to be completed. With the completion of this project, a total of 135 locations on campus will have smart audio visual technology.

Fire Watch

Johnson Controls has been working to resolve the final open issues on the fire alarm systems with the goal of having the campus off fire watch by September 15th.

Elevator Repairs

Theater & Student Services Center:

The elevator that serves the the second and third floors of the student center is out of service, as is the theater elevator. Both require major repairs, similar to the repair of the library last year. The contract to repair both elevators is on the September 10th Board of Trustees meeting agenda. Once approved, the repair project will likely take the better part of the fall semester.

Relocation of 3rd & 4th Floor Student Services Services:

Office of Student Activities & Campus Life:
Tower, Room 214

Health Services & Wellness Center II:
Tower, Room 250

Lactation Room:
