

BEST Center

Building Efficiency for a Sustainable Tomorrow

www.bestctr.org

The National Science Foundation
Center for Building Technician Education

urges you to **SAVE THE DATE (June 6-8, 2013)**

for an upcoming workshop in

Sustainable Facilities Operations

at **Milwaukee Area Technical College**, Milwaukee, WI

This 3-day workshop will assist community college instructors to

- Explore industry trends in energy efficiency, renewable energy, microgrids & sustainable operations management
- Design courses & programs in Sustainable Facilities Operations for commercial buildings
- Learn about lab exercises, equipment specifications, & instructional lab setups
- Develop industry collaborations & advisory boards in Sustainable Facilities Operations

Space is limited, with participants selected through application reviews -

DEADLINE to apply is April 29, 2013. Travel stipends will be available.

Apply online at <http://www.surveymonkey.com/s/FX9JYX8>; contact Larry Chang, BEST Center coordinator, with questions at 510.464.3240, laneyect@gmail.com.
