

Fall 2014 Foundation Skills Pathway Program

A Laney College

First-Year Pathway Program

Qualified Students

- ***Must enroll in all 12 units and attend Orientation***

The Foundation Skills Pathway (FSP) program is a new community at Laney. Our goal is to create an introduction to college education for all students who assess in at the basic skills level. We will help students master basic reading, writing, math and college success skills so that they can proceed through mainstream college/vocational course work and achieve their educational goals.
