

# MACHINE TECH 208 NOW OFFERED AT LANEY COLLEGE

theory + operation + maintenance

**ENROLL NOW!**

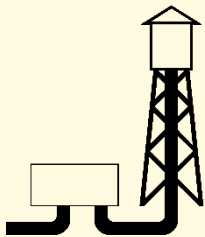

\*Relevant work experience may be substituted for course prerequisites.  
Contact the Machine Technology department chair for more information:  
Louis Quindlen (lquindlen@peralta.edu)

*Some reasons why you should take MACHINE TECH 208:*

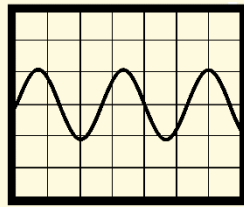

## THEORIZE

the basic physics of fluid flow and hydraulics in piping systems

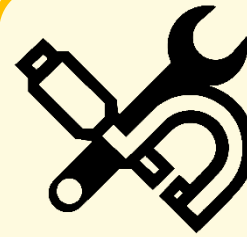

## OPERATE

models and test equipment to gain control over system performance

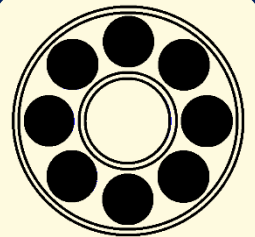

## MAINTAIN

pump health whether responding to trouble or keeping it from happening in the first place

## REPAIR

and rebuild full-size industrial pumps using hand tools and precision machine tools

## DIAGNOSE

common machinery components like rolling element bearings, mechanical seals and shafts

• • • SPRING SEMESTER 2020 • SATURDAYS FROM NINE AM TO TWO PM • • •
