Note: The total cohort count may be somewhat smaller than the corresponding total displayed in other tracking analyses due to matching with classes taken. Some in the original cohort entered but did not take any classes that counted for attempted units.

Note: The cohort consists of Fall students enrolled at census with an Enrollment Status of "First-Time College" and with a Matriculation Status of "Matriculated." Students are divided into groups based upon how many of the first four regular semesters they attended. Attending is defined as attempting at least one course in the semester. Semesters attended need not be consecutive except in the case of attending all four. Students are individually tracked to determine the number of the cohort who earn an AA/AS degree or a Certificate at any Peralta CCD college or who transfer to a 4-yr college within the indicated time period.

Source: Transfer figures derived from state Chancellor's Office ARCC files for Student Progress and Achievement by matching student ID's of ARCC cohort data (all available cohorts simultaneously) with those of the indicated College's fall entering cohort. ARCC data includes transfers to CSU, UC, and private and out-of-state colleges whose data is available in the National Student Clearinghouse. ARCC data does not specify the institution to which the student transferred nor periods less than six years.
