

# LANEY COLLEGE GOALS 2010 - 2011

*It is imperative that Laney College move towards a level of institutional effectiveness consistent with the priorities laid out in the Laney College Educational Master Plan. The successful achievement of the Academic Year 2010-11 goals highlighted below will be instrumental in this regard. Indirectly embedded in the foundation of these goals also includes a focus on curriculum, instruction, student services, administrative (business) services, and shared governance. Using the College mission as a guide, achievement of these goals will help enable the college community to “actualize” a more robust, active, extra-ordinary learning community where “...all are encouraged to become responsible community members, leaders and world citizens.”*

**Priority 1: Implement and assess practices that improve the college's institutional effectiveness.**

Measurable Goal #1: Assessment – Initiate the full program level assessment cycle by the end of the year consistent with our accreditation requirements. This consists of developing all SLOs for courses by Fall 2010, and for programs by Spring 2011.

Measurable Goal #2: Accreditation – Provide leadership support to the District to assure re-affirmation of Laney College’s accreditation on unconditional (non-probationary) status.

**Priority 2: Advance the college's educational priorities of Career Technical Education, Transfer Education, and Foundation Skills.**

Measurable Goal #3: Student Performance – Increase the performance rates (i.e., retention, persistence, successful course and certificate completion, graduation and transfer) among all students in ways that demonstrate student equity. This includes ensuring that students transition efficiently and effectively from foundation skills to college level skills courses.

**Priority 3: Develop and manage resources (i.e., facilities, technology, personnel and finances) to advance the college educational priorities.**

Measurable Goal #4: Resource Management – Ensure fiscal solvency that supports securing at minimum \$5 million from alternative funding sources to support the educational priorities of Laney College.

**Priority 4: Honor and celebrate the contributions and impact of Laney College as a destination point on the Planet contributing to the cultural, economic, and transformative experience throughout the Bay Area via educational excellence and its sustainability commitment.**
