

• Laney iCreate •

Visual Imaging

Laney College Oakland, CA

iCreate is a 4-week program for *high school students* interested in visual imaging.

This hands on program is designed to give you an introduction to **graphic arts, computer information systems, media and photography.**

Each day will introduce you to the current skills and technology used to create digital imaging used in each of these vocational fields. Learn from professional instructors about what it takes to pursue career opportunities offered at Laney.

Start this summer off with an experience towards your future and have fun!
