

December 2019

Laney Facilities & Technology Updates

Working Together to Support Our Students & The Campus Community

Bakery Ovens

The final piece of the new bakery ovens installation project is finally complete. The ovens were installed during the summer and have been in use however the contractor was finally able to complete with work on the makeup air unit.

Tech Tuesday

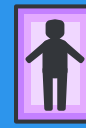

The last Tech Tuesday session for the Fall term will be on 12/10/2019. The topic will be "Excel- Tips and Tricks". If you have questions on using Excel, please come to T-513 between 12-1 on 12/10/19.

Old Computers?

Contact laneyhelpdesk@peralta.edu for help with disposing old equipment.

Elevator Repairs

The student center elevator repairs are in progress and on schedule. It should be up and running before the start of spring semester. We're working on several other minor repairs in the student center as well.

The theater elevator repairs are in progress as well. The contractor is working through some unforeseen circumstances. We're optimistic that this elevator will also be back in service by the time spring semester begins.

E building elevator experienced mechanical problems and had to be shut down. Parts have been ordered to restore the elevator back into service by mid-December.

The E building elevator and both Tower elevators are scheduled for replacement. A new project manager is being assigned to get help move the plans through DSA. In the meantime, we have a service contract with Kone to maintain the elevators. If you experience any problems on any elevators around campus, please report them to the business office at 510-464-3228.

Men's Locker Room

The plumbing repair for the men's locker room is underway. We expect the locker room to reopen by December 5th.

Heat on Campus

Brrrr.... baby it's cold outside! While the heat has been turned on for the campus, some areas are still a bit cold. District engineers are working on the areas needing attention and DGS has reached out to the vendor for added support to get the entire system fine-tuned and running smoothly.

Parking Lot Lights

The contractor is nearly finished repairing the parking lot lights. The lights should be up and running by December 8th. The temporary lights will remain in place until the job is complete.

Window Replacement

The contractor has started on the window replacement project. The first 20 classroom and office windows have been replaced. The balance of the windows should be completed before spring classes begin.

Software & Computer Changes

Licensing has changed for the Adobe software and Laney IT is updating computers. Some users will see a message that their license has expired. If you see that, please open a ticket by emailing laneyhelpdesk@peralta.edu.

Spare Toner!

Laney IT has some new spare printer toners. Please refer to: [New toner list](#). If you would like any of the items, please add your name to the list and contact IT to pick it up. If you have any new toners that you are not using, please add them to the list.
