Laney Facilities & Technology Updates

Working Together to Support Our Students & The Campus Community

HVAC Project

Swinerton is working on several long-standing HVAC items including the student center, writing center, art center and field house. This work is expected to be completed by the end of June.

Leak Remediation Phase III

The final phase of the leak remediation is slated to begin this summer. It will be an extensive project and will include all known remaining leaks including façade, roof, deck and plumbing leaks.

A Brighter Parking Lot

The parking lot will be a lot brighter when the campus reopens. Several lights have been replaced with LED lights and we expect to have about 20-24 more lights changed over the summer which will be a vast improvement.

Work Orders

Work requests can be submitted by emailing the Laney Business Office at lbusinessoffice@peralta.edu or texting 510-599-9411.

Committed to Clean!

The campus has been cleaned by Ray & Associates. Our custodial team is cleaning rooms after each use including wiping door handles, light switches, floors and pulling trash. Please note that the custodians are unable to clean computers or equipment.

Paving Project Underway

A paving project to repair and repave the perimeter of the campus is expected to take place over the summer.

FPC Meetings

Facilities Planning Committee meets the 1st and 3rd Monday of the month during the fall and spring semesters and meetings are open to everyone. [Click here to learn more.](#)

Laney IT Continues to Support!

Laney IT continues to provide remote and limited scheduled on-site support. If you have any tech needs, please email laneyhelpdesk@peralta.edu

IT Resources Available for Faculty and Students

- If you need a licensed Zoom account, follow [these instructions](#).
- [Click here for Faculty Canvas resources](#).
- Free Adobe Creative Cloud for students: If your students need this program for a course they are taking, please contact laneyhelpdesk@peralta.edu
- Need training on NetTutor, Proctorio, Labster, Zoom etc? The California Virtual Campus has many training videos [online](#). Access the CVC-OEI [calendar of available trainings](#).
- The district IT helpdesk system is now accessible only within the Peralta portal. Login to the Peralta portal and look for "Peralta Helpdesk" in the list of applications or you may also email the college helpdesk laneyhelpdesk@peralta.edu for any tech issues.

Free Chromebook Lending Program Launched For Students

Currently enrolled Laney students were provided with new Lenovo 14 inch, touchscreen Chromebooks that are Wi-Fi enabled. These allow students to easily access Peralta email, Peralta portal, Canvas and other browser-based applications. So far about 150 devices have been distributed and more distribution events are planned for the next semester.

Remote Access For Select Labs

IT enabled remote access to selected CTE/Media lab computers for students that utilize special software for completing their lab work.

Drive Through Tech Services

In a drive through event this month, IT issued laptops to staff/faculty to continue with remote work
